<p>1. A POA has been granted for the Station to contact, assess, and recruit the Subject as a REBORN spotter-informant. In addition, the POA provides for the Subject's recruitment as a REBORN agent if she should make a trip to the USSR.</p> <p>2. The Subject was active at the Marseilles Trade Fair in September 1959 on behalf of AMERICAN/1, when that group mounted an operation aimed at contacting members of the Soviet Unification Exhibit. The Subject was unpaid and active on the periphery of the AMERICAN/1 contact team, and we know little about her. She was reported to be active in engaging the Soviet Unifications in conversation. Formatted under separate cover is an AMERICAN/1 report on some of these conversations.</p> <p><i>Identify A</i></p> <p>3. Headquarters is currently in the process of assessing the AMERICAN/1 operational aspects. This reorganization includes an attempt to determine this year of an intensively tracked AMERICAN/1 operations chief (AMERICAN/29), whom task it will be to give more purpose to AMERICAN/1 combat operations and to mount REBORN-in operations under close REBORN supervision. AMERICAN/29 is to conduct a survey of all AMERICAN/1 personnel and collaborators in Europe, to report on them in detail, and finally to propose and direct them both as a support and spotting mechanism and as sources of contact teams. Hence it is undeniably just a matter of time until the subject will come under AMERICAN/29's purview. (In fact, we believe the two may probably already be acquainted since AMERICAN/29 was also active for AMERICAN/1 in Marseilles last year. No inquiry will be made at the present time, however.)</p> <p>4. Your contact and assessment of the Subject will be followed closely here. We shall keep you informed of any AMERICAN/1 interest in her and Headquarters assumes you will agree that it is best if we take no action here to discourage AMERICAN/1 interest in the Subject. We believe that your own judgment will for the time being be best to maintain the status quo in this case and not ask the AMERICAN/1 here anything about her. During the assessment phase it is suggested that the Station obtain a full definition on the Subject's ties and relationship with AMERICAN/1 and other similar sources. Headquarters is especially anxious of having your comments on prospects for REBORN use of the Subject as an informant agent. In general, our judgment would be to use such an agent unilaterally. But in any case, if the subject cuts as a REBORN traveller, there is a REBORN mission in the near future involving a secondary task for which she might be well-suited since she has been to the Marseilles Fair and she has met the target already.</p> <p>5. You will appreciate the delicacy of this case since it could influence future AMERICAN/1 relations. While Headquarters has no objection to receiving information or collaboration from another country on AMERICAN/1 interests, it is important that AMERICAN/1 not become aware of such international operations. Should you find it necessary to do so, please</p>

Subject to undertake activities for CINCPAC without revealing the work to
AMCASHAWAY/1 or to some other assign command. Headquarters is not averse
to using the Subject jointly with AMCASHAWAY/1. As a matter of fact,
KURARK is presently involved in several such operations. However, the Subject
would be especially useful if she could be run independently. We shall await
your recommendation on the method of handling and proceeding in the case.
